In the matter of weights of rail and the ever-increasing change from steam locomotives to diesel-electric locomotives, it is deemed necessary to amend Rules and Regulations, Rule 121, Part III, Locomotives, by authority of the provision of section 289 of the "Railway Act," being chapter 285, R.S.B.C. 1948.

Now, therefore, I, William Ralph Talbot Chetwynd, Minister of Railways of the Province of British Columbia, hereby certify that, pursuant to section 289 of the "Railway Act," I have amended the Rules and Regulations, Rule 121, Part III, by adding the following:—

"(f) *Classification and Speed-control.*—In view of the available information to date on the subject, and considering that the full effects of diesel-electric operation on track and structures are not yet as firmly established as are the ramifications of steam-locomotive operation, one point appears certain at this time regarding diesel-electric operations, and that is the only feasible governing factor in diesel-electric operation resolves itself to speed and speed-control on various weights of rail.

"(1) That all diesel-electric locomotives be classified by code stencilled on the cab of the locomotive, such letters to indicate class, number of axles, number of drivers, weight per axle (starting tractive effort), as indicated in the following table:—

A—Alco (MLW).
B—Baldwin (Baldwin Lima Hamilton).
C—Canadian (Can. Locomotive Co.).
F—Fairbanks-Morse.
G—General Electric.
GM—General Motors.
First figure—total number of axles.
Second figure—number of drivers.
Third figure—starting tractive effort at 25 per cent adhesion in thousands of pounds.
First figure×third figure—total weight of locomotive in thousands of pounds.
Second figure×third figure—weight on drivers in thousands of pounds.
Example: Four-wheel truck Alco—Class A 4-4-60.

“(2) That provided track and road-bed are up to standard the following maximum speed restrictions will apply, where diesel-electric locomotives are used:—

“(i) On common-carrier railways where passenger-trains are operated over any portion of the railway:—

- Class 4-4-60:
25 m.p.h. on rail 60–84 pounds.
45 m.p.h. on rail 85–90 pounds.
Unlimited 90 pounds and over.
- Class 6-4-40:
25 m.p.h. on rail 60–84 pounds.
50 m.p.h. on rail 85–90 pounds.
Unlimited 90 pounds and over.
- Class 4-4-35:
35 m.p.h. on rail 60–84 pounds.
Unlimited on rail 85 pounds and over.
- Class 4-4-32 and lighter:
Unlimited speed on rail above 56 pounds.

“(ii) On any railway where passenger-trains serving the public are not operated:—

- Class 4-4-60:
30 m.p.h. on rail 60–72 pounds.
35 m.p.h. on rail 73–85 pounds.
Unlimited 85 pounds and over.
- Class 6-4-40:
30 m.p.h. on rail 60–72 pounds.
35 m.p.h. on rail 73–85 pounds.
Unlimited 85 pounds and over.
- Class 4-4-35 and lighter:
30 m.p.h. on rail 59 pounds and lighter.
40 m.p.h. on rail 60–72 pounds.
Unlimited 72 pounds and over.

“(iii) Nothing in these rules shall be misconstrued to prevent the Minister imposing further restrictions where, in his opinion, conditions warrant, or to prevent the company imposing reduced-speed restrictions on local slow orders, but, in any event, the responsibility for the observance of all speed restrictions shall remain with the company.”

In witness whereof I have hereunto set my hand and seal this twenty-first day of August, in the year of our Lord one thousand nine hundred and fifty-three.

618-au27 RALPH CHETWYND,
Minister of Railways.

(2) (a) Payment shall be made to primary producers at regular periods as approved, in writing, by the Board.

(b) Post-dated cheques, promissory notes, or other undertakings or documents issued and not immediately negotiable at face value shall not be regarded as payment under this Order.

(c) Every primary producer shall be furnished each period with a statement showing in detail the butter-fat tests; price, poundage, and amount paid for milk used for whole-milk requirements; price, poundage, and amount paid for milk in excess of whole-milk requirements, if any; total milk received, total payment, Milk Board licence fees deducted, and all other deductions duly itemized.

Contracts

10. The provisions of this section are hereby declared to constitute part of any contract which has been entered into or which may hereafter be entered into between a milk-dealer and a primary producer, or between a co-operative, association, or agency and its primary-producer members.

(1) The allotment and acceptance of a basic quota shall be deemed to constitute a contract between the primary producer concerned and his milk-dealer or his co-operative, association, or agency.

(2) On or before February 15th, 1954, every licensed primary producer shall be allotted a basic quota calculated on shipments made during the basic term immediately preceding.

(3) Every licensed milk-dealer must accept from each primary producer licensed to supply or deliver milk to him his period quota, and no primary producer shall be obligated to supply said milk-dealer with milk in excess of said period quota.

(4) Where a primary producer did not supply or deliver whole milk to a milk-dealer during all of the basic term, the basic quota shall be determined as under:—

(a) In the event a new primary producer commences to ship whole milk at any time during the basic term, the total pounds of whole milk supplied or delivered shall be divided by the number of days he did supply or deliver milk during the same basic term:

(b) In the event any primary producer ceased to supply or deliver whole milk during the basic term, and resumed shipments later in said basic term, the total pounds of whole milk delivered or supplied shall be divided by the total number of days in said basic term.

(5) On the 15th day of February in each year after 1954 basic quotas may be revised upward or downward if the volume of whole-milk requirements requires a general adjustment of said quotas, or basic quotas may be allotted to new primary producers.

(6) Basic quotas shall be adjusted on the 15th day of February in each year after 1954 in the case of all primary producers who have failed to deliver the full amount of their basic quota during

the preceding basic term. Adjustments shall be made by reducing said quotas to the average daily shipments made by such primary producer during the said basic term.

(7) No adjustment shall be made to any basic or period quota merely because all or any part of the milk delivered by a primary producer during any period is classified as unfit for the fluid trade, provided always that his Class IV licence remains in good standing.

(8) If any primary producer's licence is suspended and remains suspended for a period of thirty (30) days, his basic quota shall be cancelled and shall be at the disposal of the Board.

(9) If any primary producer's licence is cancelled either by the Board on its own motion or by the Board at the request of any duly constituted Health Authority in any prescribed area, his basic quota shall *ipso facto* be cancelled as of the date of the cancellation of his licence and shall be at the disposal of the Board.

(10) (a) In the event the whole-milk requirements of a milk-dealer during any period exceeds the combined total of all basic quotas allotted, such additional milk shall be added *pro rata* to said quotas.

(b) In the event the whole-milk requirements of a milk-dealer during any pay period are less than the combined total of all basic quotas allotted, all said quotas shall be reduced by the percentage said quotas exceed requirements.

(c) In the event the basic quota allotted to a co-operative, association, or agency is adjusted in accordance with the provisions of either (a) or (b) of this section, the basic quotas of its members shall also be similarly adjusted.

11. No licensed primary producer shall hold a quota with more than one milk-dealer except with the written approval of the Board.

12. No licensed primary producer shall supply a milk-dealer with milk other than that produced by his own herd on his own premises, or, in the case of a co-operative, association, or agency, with milk other than that handled for its own members.

Quota Committees

13. (1) There shall be a committee, known as a Quota Committee, established for each milk-dealer's plant and for each co-operative, association, or agency in all areas now prescribed or which may hereafter be prescribed in an Order of the Board, and such committees shall consist of three members as follows:—

(a) A representative appointed by the milk-dealer, co-operative, association, or agency:

(b) A primary producer appointed by the primary producers shipping to that milk-dealer, co-operative, association, or agency; or failing such appointment, a primary producer named by the Board:

(c) A representative of the Board.

(2) A quorum shall be the Chairman and one other member of the committee.

(3) The Board's representative shall be the Chairman and convener of the respective committees and shall have a vote on all questions and in the case of a tie shall have a second or casting vote.

(4) Basic-quota adjustments as provided for in subsections (5) and (6) of section 10 of this Order shall be made by the appropriate committee.

(5) In the case where any basic quota is reduced on the 15th day of February in any year, the quota thus available shall be at the disposal of the appropriate committee for allotment to such other basic-quota holders, or to new primary producers, in such proportion as the said committee shall direct.

(6) No basic quota may be transferred by a licensed primary producer to any other person without the permission from the appropriate committee, and applications for the transfer of basic quotas shall be dealt with by said committees, who may grant or refuse such applications.

(7) Any person affected by a decision of a quota committee shall have the right of appeal to the Board within twenty-eight days from the date of such decision.

(8) In the event a milk-dealer has knowledge that his whole-milk requirements may be greatly increased or decreased by the obtaining or losing of a contract, or for any other reason, it shall be his duty to so advise the appropriate committee for such action as it deems advisable or necessary.

(9) Quota committees shall furnish reports at such times and in such form as the Board may from time to time prescribe.

Records, Reports, and Returns

14. Pursuant to section 47 of the Act:—

(1) Distributers shall keep such books, records, and accounts as will afford an intelligent understanding of the conduct of their business or as the Board may from time to time prescribe.
